Tenancy at the Business Centre is tracking well with two perspective tenants having toured the facilities this week. Advertising for new tenancy continues in the form of radio, new signage and sponsorship. Concrete Culture have advised us that they will be moving out shortly. They have already outgrown us - their new premises is over 10 times larger than their current space here at the Business Centre. We wish them well in their future endeavours.

Environmental Upgrade Agreements

Council is currently working with the Sustainable Melbourne Fund to offer within Greater Shepparton Environmental Upgrade Agreements. The Local Government Act was amended to allow for EUA's to be entered through Council. EUA's offer landlords the opportunity to enter into loan agreements with the SMF while Council receives repayments through its rates system. EUA's offer landlords the opportunity to include the tenant into the agreement and receive competitive interest rates and extended loans which can make energy related initiatives more viable. Council, at the April Council Meeting, resolved to adopt this system, internal processes are currently being undertaken with the ability to enter into the agreements being available in approximately

4-6 weeks. Contracts currently being signed. Hoping to be underway in August.

SPC Ardmona Mooroopna Site

Agreement of sale signed on Friday 10th June between SPC Ardmona and Geoffrey Thompson. You will recall that part of the \$22M funding agreement with the state included consolidation of operations. Tim has initiated co-ordination of Winter City Markets with local traders – steering committee meeting was held on Wednesday afternoon.
